

EP Web Report - Scheduling

1) New Report Schedule - Equipment Providers can schedule report to run on a defined frequency (like daily, weekly & monthly). Here's how to do.

Login to your account -> Click on Web Report Generator link-> Select Report Criteria-> Scroll down to the bottom of the page-> Click on "Schedule Report" button. It will open popup which will allow you to schedule your report with the criteria you have selected.

Existing Report Schedule

Schedule Report Criteria

Report Criteria

Field Set: Your Field Picks

Fields Selected: MC Company Name, SCAC, Known As, Address1, Address2, AL Expiration Date, GL Expiration Date,

File Type: Excel

Sort Order: Company Name

MC Filter: All Member Carriers

[Close](#)

Scheduled Report Name	Schedule Type	Schedule Time	Report Criteria	Report Schedule
APL-Schedule 1	daily	8	VIEW EDIT	EDIT / DELETE

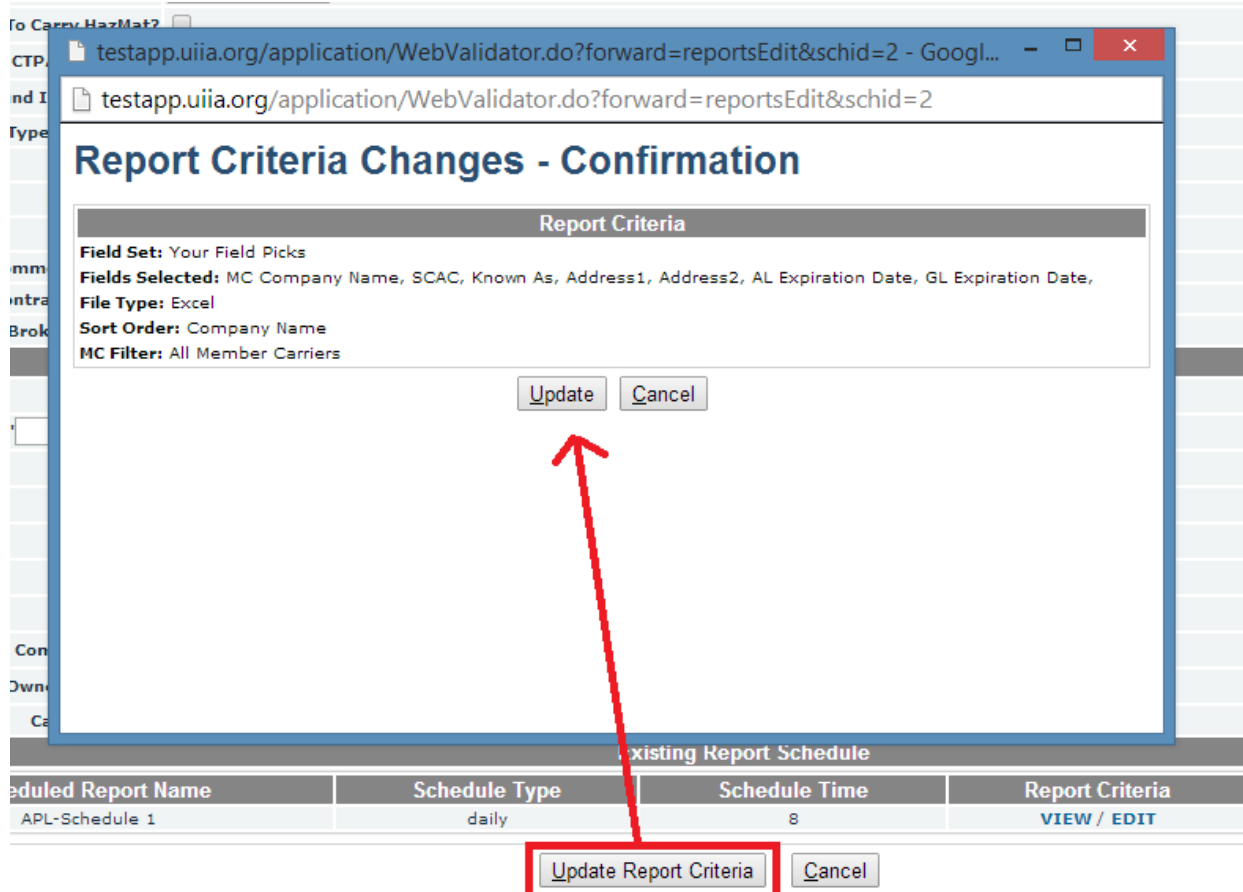

[Generate Report Now](#) [Schedule Report](#) [Reset](#)

3.2 Edit Report Criteria: As soon as user clicks on "Edit" link, "Generate Report Now", "Schedule Report" & "Reset" button will disappear. User will see "Update Report Criteria" button and "Cancel". The system will populate existing report criteria selection or values on Web Report Generator page. Users can add/modify field selection depending on output fields they want to see in the report.

Scheduled Report Name	Schedule Type	Schedule Time	Report Criteria	Report Schedule
APL-Schedule 1	daily	8	VIEW EDIT	EDIT / DELETE

[Update Report Criteria](#) [Cancel](#)

Once the desired modification is done to update the criteria user can click on "Update Report Criteria" button. The system will again display report criteria changes for confirmation in popup and from this screen either user can update the changes or cancel it.

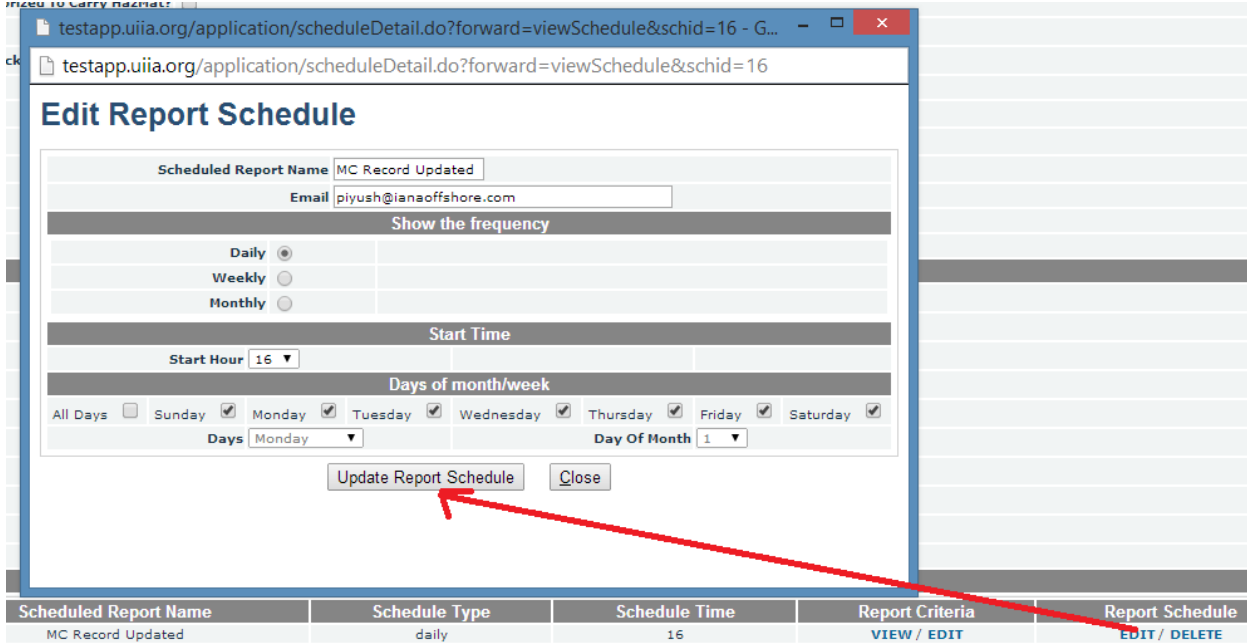

If user hits "Update" button then the system will display below message as a confirmation that the criteria has been successfully updated. If user hits "Cancel" button then the popup will be closed.

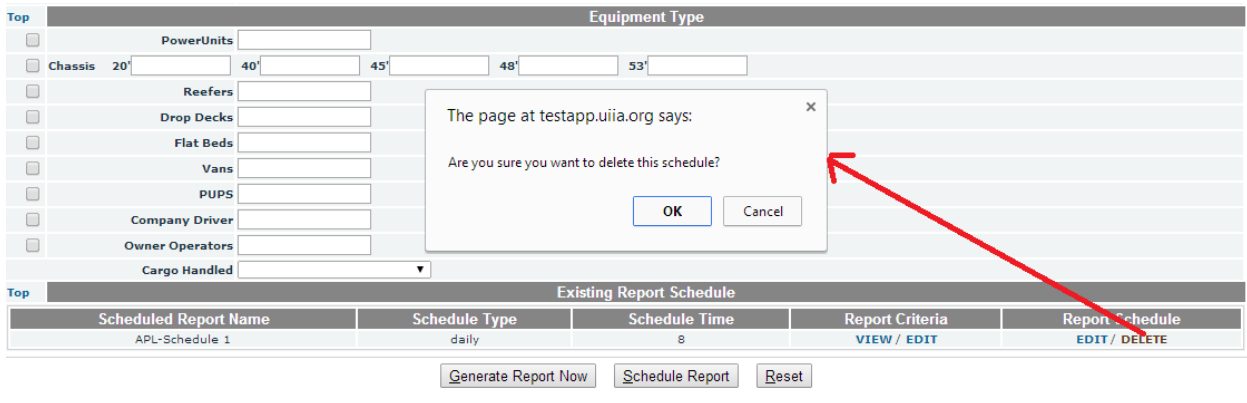

4) Report Schedule (Edit/Delete) - User can modify or cancel existing report schedule.

As shown in below screen shot, use can change the timing schedule or frequency of existing report.

As show in the screenshot below users can cancel their existing report schedule by clicking "DELETE" link shown for each schedule. The will again ask for confirmation whether user wants to delete the schedule or not if user clicks on "OK" then system will go ahead and remove existing report schedule.

5) Dynamic Date Range Selection - User can select dynamic date range in order obtain report on for a specific date range on a daily basis. For example, user wishes to pull the report from Previous day's update through today then they can. Here is how.

Top		Status	
Static Date Range		OR	Dynamic Date Range
MC Record Updated	<input type="text"/> <input type="text"/>	OR	From Current date minus <input type="text"/> days - To Current date <input type="text"/>
MC Status Changed	<input type="text"/> <input type="text"/>	OR	From Current date minus <input type="text"/> days - To Current date <input type="text"/>
Policy Expiration Date	<input type="text"/> <input type="text"/>	OR	From Current date minus <input type="text"/> days - To Current date <input type="text"/>
UIIA Acceptance Date	<input type="text"/> <input type="text"/>	OR	From Current date minus <input type="text"/> days - To Current date <input type="text"/>
UIIA Reinstated Date	<input type="text"/> <input type="text"/>	OR	From Current date minus <input type="text"/> days - To Current date <input type="text"/>
Deleted From UIIA	<input type="text"/> <input type="text"/>	OR	From Current date minus <input type="text"/> days - To Current date <input type="text"/>
MC Will Become Not Approved	<input type="text"/> <input type="text"/>		

Note: To pull report by specific date range, use static date range fields OR to pull or schedule the report that uses dynamic date range each day then use dynamic date range fields. When using dynamic date range fields please make sure that "From Current date minus...days" field must contain value greater than zero and "To Current Date" field is set to YES.

New fields under "Dynamic Date Range" have been added. User can either enter static date range or choose to pull the report by entering dynamic date range by entering days in current date minus field and set current date field to YES.
