RE: Evergreen Shipping Agency Expands Use of IANA's Street Interchange Application Nationwide

Evergreen Shipping Agency (America) Corp. has currently been using IANA's Street Interchange Application (SIA) for facilitating street turn and street interchange requests on regional basis in the states of California and Washington. We are pleased to announce that Evergreen has now decided to expand its use of the SIA application to all of its locations nationwide. **All street turn or street interchange requests involving Evergreen equipment should be submitted through IANA's Street Interchange Application (SIA) effective March 18, 2019.**

Motor Carriers may access IANA's Street Interchange Application via link on navigation bar once logged into their UIIA account or by going directly to www.streetinterchange.com and using their UIIA credentials to log into the system.

Instructions for utilizing the street interchange application may be found on the UIIA website at www.uiia.org or by the following link: [Motor Carrier Street Interchange Instructional Guide](#) . Specific instructions on how to initiate a street interchange request through the application may be found on page 15 and on how to initiate a street turn on page 20 of the instructions.

Should you have any questions regarding the street interchange application, please feel free to contact our office at 877-438-8442. Thank you.
